

# BE SAFE BE STYLISH

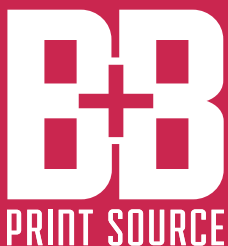

## WITH CUSTOM FACE COVERINGS FROM B&B PRINT SOURCE

A growing number of studies point to the mask as a powerful tool that can help control the spread of disease. As businesses reopen and more people head back to work, face coverings are an essential tool in keeping everyone safe.

Our dye sublimation process allows you to print bright, full colors that last. The dyes used become part of the mask instead of sitting on top of the fabric, creating a more comfortable, durable face covering that fully expresses your brand. We offer masks in two styles: Sports Style and Standard Style.

### SPORT STYLE

Offers a seamless, streamlined fit that is more contoured to the face, with no seam in front. Both the front and back panels can be customized.
