B&B PRINT SOURCE

BE EXCITED

DIGITAL PRINTING

At B&B Print Source, we offer Portland's best digital printing services. There's no job too large or too small for us to handle quickly and efficiently. We have state-of-the-art digital presses that deliver the highest quality available.

Our consultants will work to accommodate your timeline, budget, and specific requirements. We have multiple digital presses that can handle any job, including print jobs larger than the industry standard (12 x 18). We also have specialized digital bindery to turn jobs quickly.

WHY CHOOSE DIGITAL PRINTING?

- **TIMELINESS:** There are fewer steps in the printing process, and as a result, the final product can be delivered quicker. It also allows for quick color proofing, without slowing down the overall project.
- **COST EFFECTIVE:** Due to its simple process, and the absence of a traditional printing plate, digital printing is more cost effective for small runs.
- **SHORT RUNS:** Digital printing is the ideal method of producing short to medium print runs compared to traditional methods.
- **LESS WASTE:** Digital printing wastes less paper and chemicals, making it an Eco-friendly choice for your next job.
- **CUSTOMIZATION:** Digital printing provides the most affordable solution to customize your marketing materials, allowing you to showcase your brand's unique content. This improves response rates and engages audiences in a whole new way.
