OFFSET PRINTING

We're not afraid to say that we produce the highest quality offset printing in the Northwest. We've been in this business for over 30 years and it shows in the award-winning quality and craftsmanship of our work. Our experienced operators understand every aspect of production, from the mechanics of the presses and color management, to the various properties of the inks and paper we use.

Our two KBA presses offer accurate color reproduction, specialty varnish and finishing options, and printing that makes your brand look amazing. With multitudes of stock options, size variations, page configurations, we can produce just about anything.

WHY CHOOSE OFFSET?

Longer runs, complex finishes and pieces that require a larger-format are all a perfect fit for our offset press capabilities. Think packaging, posters, brochures, collateral, brand identity pieces and more!

- **SIZE:** We can accommodate projects of almost any size with a range from 6 to 42 inches.
- **FINISHES:** Offset offers the largest variety of paper options with custom finishes, such as embossing, debossing, foil, soft touch, spot varnish, and laser cutting, die-cutting and more.
- **COLOR AND INK:** Get creative with custom inks - think custom Pantone colors, brand matching, metallics and more.
- **QUALITY:** Offset presses offer the highest possible print quality, with accurate, consistent color from the first sheet to the last.

Be Inspired! From business cards, to posters and brochures, to finished books, we can handle a wide variety of projects. Bring us your marketing ideas and together let's create stunning results!
